SKILLS

- Team Work
- Time Management
- Leadership
- Verbal & Written Communication

LANGUAGE

- English
- French
- Arabe

PROFESSIONAL PROFILE

I am passionate about exploring different programming languages and new technologies in the field of computer science. After obtaining a degree in Aircraft Mechanics, I chose to transition into the field of computer science and recently earned a degree in Software Engineering from Polytechnique Sousse. My ultimate goal is to become a skilled software engineer and continue to grow in this dynamic field.

WORK EXPERIENCE

IT Developer (SWConsulting)

Sep 2023 - Today

The implementation of a CRM project aimed at designing and implementing a system for extracting data from PDF files, with a file download functionality.
- Develop and implement a user interface for uploading PDF files.
- Design and develop features to manage and display the extracted data, such as visualization, models, search, and sorting.
- Develop a configurator to compare and verify or modify all data in the documents.
- Optimize the data extraction system's performance by implementing efficient coding practices and using caching and pagination techniques.
